

Drs. Chris Ramsey, Nicolae Strungaru and Adi Tcaciuc at MacEwan University in Edmonton, Alberta, Canada are offering a 2 year postdoc position in functional analysis starting September 2023 (the start date can be flexible).

Applicants should have a background in functional analysis and have an interest in the interactions of all three researchers' fields of study. There are no teaching obligations.

Candidates must hold a PhD in Mathematics, or expect to be awarded one by the appointment date. Candidates must be at most five years from receiving their PhD.

To apply, please email a cover letter, C.V., and research statement to ramseyc5@macewan.ca. Please also arrange for two or three letters of recommendation to be emailed to the same email address and indicate in your cover letter who your letter writers are. Please use this email address if you have any questions.

Deadline for this application is May 26th, 2023.
