

Department of Mathematics, Oklahoma State University

Calculus III, Math 2163, Fall 2012, Sections 001 & 002

Lectures:

Section 1: Monday, Wednesday, Friday, 7:30 AM – 8:20 AM in CLB 201

Section 2: Monday, Wednesday, Friday, 8:30 AM – 9:20 AM in CLB 201

Instructor: Mahdi Asgari

Office: MS 525

E-mail: asgari@math.okstate.edu

Tel: 744-6718

Office Hours: Monday, Friday 10:30 AM – 11:20 AM, Wednesday 1:00 PM – 2:00 PM, or by appointment.

Textbook: Stewart, Calculus Early Transcendentals (Custom Edition for Oklahoma State University), CENGAGE Learning, 2008.

You will need the book along with an “access code” for using WebAssign to be entered within the first two weeks. Otherwise, you will not be able to use WebAssign after this introductory grace period.

You are expected to read through the part of the text that is to be covered in each class *prior* to the class meeting. We will be covering the following sections in the same order: 12.2–12.5, 13, 14.1–14.8, 15.1–15.2, 12.6, 15.3–15.9, 16.1–16.4

Grading: Your final grade in the course will be based on the following with the indicated approximate cut-offs for letter grades.

Homework:	100 points	A:	540–600
Three In-class Exams:	100 points each	B:	480–539
Final Exam:	200 points	C:	420–479
Total:	600 points	D:	360–419
		F:	0–359

Homework: Homework assignments will be submitted online through *WebAssign*. To get started, read the accompanying handout carefully.

You will need to self-enroll as a student for this class on WebAssign before you are able to submit homework assignments. You will need the following ClassKey information in the process:

Section 1:	okstate	0858	1949
Section 2:	okstate	6850	0617

If you run into any problems, help is available at Mathematics Learning Success Center (MLSC). The assignment due dates are posted on WebAssign.

Exams: There will be three in-class mid-term exams and a final exam in this course. They are tentatively scheduled as follows. (All exams are held in the regular classroom.)

Exam 1: Monday, September 24, 2012 (Sections 12.2–12.5, 13, 14.1–14.5)

Exam 2: Friday, October 26, 2012 (Sections 14.6–14.8, 12.6, 15.1–15.3)

Exam 3: Monday, November 19, 2012 (Sections 15.4–15.9)

Final: Section 1: Friday, December 14, 2012, 8:00 AM – 9:45 AM

Section 2: Monday, December 10, 2012, 8:00 AM – 9:45 AM

(Final is cumulative; it covers all the above sections plus 16.1–16.4)

Attendance and Absences: You are expected to attend each and every class meeting and will be responsible for knowing everything discussed or announced in class.

Free Tutoring Assistance: The Mathematics Learning Success Center (MLSC) can provide tutoring and other services for this and similar mathematics courses. MLSC is currently located on the 4th floor of the Classroom Building, with plans to move in the Edmond Low Library in the near future. To receive help, please check in for tutoring in room CLB 420.

In addition to office hours and in-class discussions, MLSC will be your primary source of help with this course and the assignments.

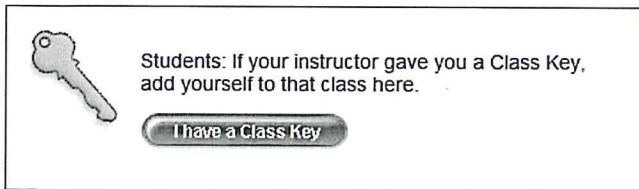

OSU Syllabus Attachment: For general university policies and important dates see:

Note: The instructor reserves the right to make modifications to this course information sheet throughout the semester if it becomes necessary to do so.

WebAssign Self-Enrollment for OSU Calculus

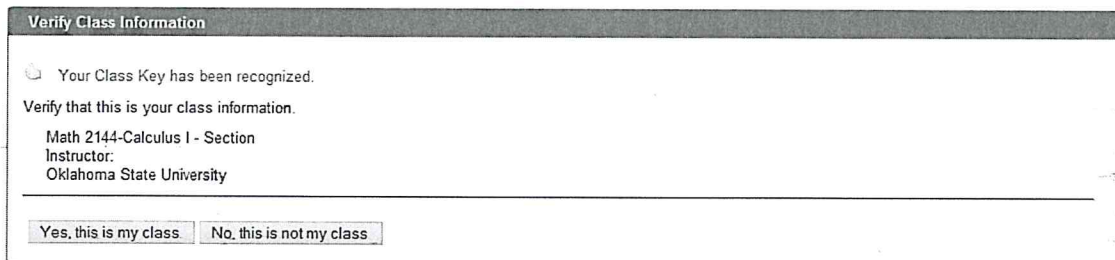

1. Go to <https://www.webassign.net/login.html>. At the bottom of the page, it should say, "Students: If your instructor gave you a Class Key, add yourself to that class here." Click the button that says, "I have a Class Key."

2. Type the class key your instructor gave you in the three boxes that appear. In the first box, you'll type okstate. In the second two, you'll type four-digit numbers. Click submit.

A screenshot of a form titled "Class Key". The text inside says: "Enter the Class Key that you received from your instructor. You will only need to complete this once. After you have created your account, you can log in on the main page." Below this is a label "Class Key" followed by three input boxes. A note below the boxes says: "Class Keys generally start with an institution code, followed by two sets of four digits." At the bottom is a "Submit" button.

3. You should get a screen that says that your Class Key has been recognized. Make sure the section and instructor information match the class in which you're enrolled. (Your screen will have a number after "Section" and an instructor after "Instructor:" in the picture below.) If not, check to be sure you have the right Class Key. If the information is right, click "Yes, this is my class."

A screenshot of a form titled "Verify Class Information". The text inside says: "Your Class Key has been recognized. Verify that this is your class information." Below this is the text: "Math 2144-Calculus I - Section" and "Instructor: Oklahoma State University". At the bottom are two buttons: "Yes, this is my class" and "No, this is not my class".

4. You will then be asked if you already have a WebAssign account. If you already have a WebAssign account from another class at OSU (not at another institution), then you may use that one. If not, select, "I need to create a WebAssign account," and click continue.

- I need to create a WebAssign account.
- I already have a WebAssign account.

5. You will now be asked to pick a username and password. For your username, we recommend that you use your O-Key in the firstname.lastname format. For example, Jane Doe would use the username jane.doe. Your institution code is okstate, and that should be entered already. Pick a password that would be hard for others to guess. Then under student information, please enter your first and last names, e-mail address, and OSU student number. When you're done, click "Create My Account."

6. You will be prompted at some point for an Access Code, which you should have received bundled with your textbook. You may use WebAssign for 14 days without entering the code, but eventually you'll be locked out if you don't enter it.
