Exams. There will be two midterm in-class exams, which are tentatively scheduled for the weeks of February 14 and April 4. The midterm exams may be rescheduled to slightly different weeks. The final exam will take place on Thursday, May 5 from 2:00 to 3:50 pm. No make-up midterm or final exams will be given, and only written official university excuses will be accepted as reasons for missing an exam. In-class quizzes may be given on selected days. They will be announced in class in advance.

Homework. Almost all your homework will be online graded homework assignments. Online homeworks will have deadline for submissions. In order to enroll and register for this section, I will provide you with a class key. The location of the WebAssign page is <http://www.webassign.net/login.html>

Attendance and Grading. Attendance of lectures is mandatory. Your grade will be based on homework and quizzes, the midterm exams and the final exam. Homework and quizzes will count for 15% of your final grade, each midterm will count for 25%, and the final exam will count for 35%. An overall score of at least 90% will receive an A, a score of at least 80% will guarantee a B, a score of at least 70% will guarantee a C, while getting at least 60% will ensure passing. Depending on the score distribution, these cutoffs may be lowered. Some discretion may be used in deciding borderline cases.

Topics to be covered. This semester we will cover chapters 12-16 of the text along with some supplementary material as time permits.

Calculators. Use of calculators will be permitted on homework, but **not** on tests or quizzes. You may borrow a graphing calculator from the Math Department, if you do not own one.

Academic Dishonesty. Oklahoma State University Academic Integrity Policy states in part: “Oklahoma State University is committed to the maintenance of the highest standards of integrity and ethical conduct of its members. This level of ethical behavior and integrity will be maintained in this course. Participating in a behavior that violates academic integrity (e.g., unauthorized collaboration, plagiarism, multiple submissions, cheating on examinations, fabricating information, helping another person cheat, unauthorized advance access to examinations, altering or destroying the work of others, and fraudulently altering academic records) will result in your being sanctioned.”

OSU Syllabus Attachment. For general university policies and important dates see: <http://osu.okstate.edu/acadaffr/aa/syllabusattachment-Spr.htm>
